

PROBLEM SOLVING ALGAE

EXAMPLE	SYMPTOMS	SOLUTION	SUGGESTED
	<p>BLACK SPOT ALGAE</p> <ul style="list-style-type: none"> · Wall clinging · Common in pebble and concrete pools · Has extrusions that attach · Protects itself with Myelin sheath · Chlorine not sufficient to kill 	<p>Focus Powercide4 Assists chlorinator cells to cope with increased demand. Regular use will overcome problems caused by algae.</p> <p>Focus Blackspot Remover kills the root deep into the wall to help prevent recurrence</p>	
	<p>GREEN ALGAE</p> <p>Single cell, usually free floating can be wall clinging</p> <p>Often starts in corners, behind ladders, dead spots</p> <p>Blooms quickly after rainfall and heat</p> <p>Out of control once visibly present</p> <p>Uses up chlorine quickly</p>	<p>Focus Algicide</p> <p>Supports salt chlorinators without affecting efficiency of salt cell. Wetting agent helps alter surface tension assisting in repelling ducks.</p> <p>Focus Hydroclear is a medium strength copper free algaecide effective against black, green and brown varieties. For use in pools where copper is of concern.</p>	
	<p>PINK SLIME</p> <p>Bacterial Slime - Pink or pale red in colour</p> <p>Not common in colder climates</p> <p>Surface growth caused by bacteria</p> <p>Often presents in patches</p> <p>Filter media replacement advised.</p>	<p>Focus Hydroclear</p> <p>A medium strength copper free algaecide effective against black, green and brown varieties.</p> <p>For use in pools where copper is of concern.</p>	
	<p>MUSTARD ALGAE</p> <p>Mustard yellow in appearance</p> <p>When brushed, dissipates like dust and will reappear after</p> <p>Very resilient to chlorine - chlorine will be present in water</p> <p>When being treated all items associated must be treated as well including pool toys, hoses etc</p> <p>Media change recommended after treatment.</p>	<p>Focus Powercide4</p> <p>Assists chlorinator cells to cope with increased demand.</p> <p>Regular use will overcome problems caused by algae.</p>	
MAINTENANCE SOLUTIONS			
	<p>WINTERISING</p> <p>Save expensive Spring green pool clean ups</p> <p>Protect your pool surface & equipment</p> <p>Easy Spring start up</p>	<p>FOCUS WINTER BOX</p> <p>Focus Powercide4 longlife Algaecide</p> <p>Focus Water Polish Plus a concentrated formula used to combine small particulate together for collection by the filter media restoring sparkle.</p>	
	<p>GOING ON HOLIDAYS?</p> <p>Protect the pool for extended periods</p> <p>Remove algae food source</p> <p>and keep algae at bay.</p>	<p>Focus Powercide4 assists chlorinator cells to cope with increased demand. Regular use will overcome problems caused by algae.</p> <p>Focus Banish Remover eliminates phosphate from pool water thereby removing a food source for algae.</p>
